

Waterglass

Spectrum Glass

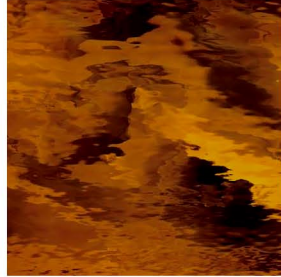

Spectrum Glass
Company

Spectrum Waterglass is a natural surface texture created by stretching the hot glass sheet while it is still in state. The result is gentle, rolling waves that resemble the surface of a lake or stream. The stretching process also renders a highly pristine surface and a slightly narrower sheet. Though many imitators have tried, nature of the true Waterglass texture.

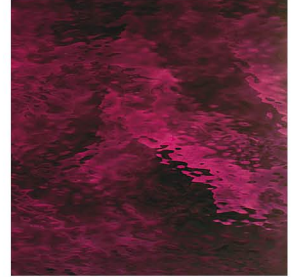

Clear
100W and I/100W
Code: SP045TM

Dark Amber
111W
Code: SP265TM
